A Canadian Artist ... Jimi was part of the Yorkville scene back in the 60's. Much of his work would fall under the category of illustration. In 1995 he became enthralled with West Coast art and worked closely with First Nations Carving artist Wayne Hill restoring and creating Totem Poles. After acquiring a large number of parts from local foundries, Jimi got into Steampunk art. He is a master at finding the 'art' in everything.

The joy and freedom of colour is the basis of Marlene's art, often combined in different styles and media - it has become the metaphor of her life's journey - exhilarating, unpredictable and joyful.

CHARLES PACHTER

One of Canada's leading contemporary artists, his iconic pop images of the queen moose and maple leaf flag celebrate Canada's cultural heritage with wit and whimsy.
